

Christmas Cracker Card

Technique used:

One cut pop - up technique, twice.

Equipment Needed:

scissors
glue sticks
felt pens and crayons
card
papers
teacher prepared example

How to make the example:

- Step 1. Photocopy the sheet opposite onto card or stick onto card.
- Step 2. Fold the card in half along the dotted line.
- Step 3. Cut with scissors along the zig zag lines marked with the wider solid lines.
- Step 4. Fold along the dotted lines forwards and backwards 10 times, leaving the shapes inside the card.
- Step 5. Let the pupils colour in the card using felt pens, crayons etc...
- Step 6. Back the card and decorate the front cover using colours and themes similar to the ones inside.

How the idea may be developed:

The pupils could print a greeting for the inside / outside of the card using a word processor. The pupils can all be introduced to the same skill yet choose from a variety of designs which the teacher has drawn. Parallel cuts can be used to make the centre of the cracker pop-up as well
